Investment Objective, Policy and Restrictions

Investment Objective	The investment objective of the Sub-Fund is to achieve capital appreciation by taking long positions on listed stocks. There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.
-----------------------------	---

Investment Policy

The Sub-Fund utilizes systematic, non-discretionary proprietary trading models based on mathematical and statistical models derived from nuclear engineering studies.

The Sub-Fund seeks to achieve its Investment Objective by investing mainly in a diversified portfolio of listed equity securities, following a long-only strategy based on a combination of macroeconomic and fundamental's analysis, as well as applying quantitative methods and statistical models. The portfolio's turnover is variable and depends on several factors such as market volatility, macroeconomic background and any other factor considered relevant to the investment strategy. No specific allocation threshold is applicable for any of the asset classes in which the Sub-Fund will invest.

The Sub-Fund will invest in a diversified portfolio of listed equity securities of any market capitalization size and sector, issued by European Economic Area ("EEA"), Swiss and US companies, provided that no less than 50% of the equity investments by the Sub-Fund will be in Euro denominated equities.

For liquidity management purposes, the Sub-Fund may also invest in other collective investment schemes, mainly money market funds, and in fixed income securities, including listed government and corporate bonds with fixed rate, convertible bonds, bonds with warrants and zero-coupon bonds, without a specific focus on geographical areas. Below investment grade or not rated debt securities will not exceed 20% of the Sub-Fund's net assets. There will be no duration limitation to such investments.

In no instance will the Sub-Fund invest, in aggregate, more than 10% of its NAV in other collective investments schemes, including money market funds.

The Sub-Fund may also invest in derivatives, including but not limited to, contract for difference instruments ("CFDs") and listed options on both equity and fixed income underlying instruments.

By potentially transacting in CFDs, the Sub-Fund is subject to a higher level of risks than the risks associated with transactions in traditional shares or fixed income securities. Investing in a CFDs carries the same risks as investing in a future or an option or other derivative products, as the fund may lose more than the initial margin and may be required to make further payments.

Investment in currency forwards or currency futures will be done only for hedging purposes. The Sub-Fund will not sell any option, does not take any counterparty credit risk that is below investment grade level and has 24 hours active stop-loss orders in place that limit loss on net asset value of the Sub-Fund.

Investment and Borrowing Restrictions

In pursuing its Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment Borrowing and Leverage Restrictions set out in the Section of the Prospectus entitled "Investment Objectives, Policies and Restrictions".

The global exposure of the Sub-Fund arising out of its FDI positions will be measured on the basis of the Commitment Approach as set out in the MFSA Rules.

Leverage

The Sub-Fund may be leveraged through the use of listed FDIs. Such FDIs may be used for investment and/or efficient portfolio management purposes.

Any revenues generated from efficient portfolio management techniques shall be returned to the Sub-Fund. Any direct and indirect operational costs and fees arising from such techniques may be deducted from the revenues delivered to the Sub-Fund. These costs and fees shall not include any hidden revenues. Upon request by holders of Investor Shares, the Company shall

disclose the identity of the entity of entities to which the direct and indirect costs and fees are paid and indicate if these are related parties to the Company, the Investment Manager or the Depositary.

The global exposure in relation to FDIs, calculated on the base of the commitment approach, shall not exceed 100% of the Sub-Fund's NAV. The Sub-Fund's level of leverage may possibly be higher under certain circumstances including but not limited to a low market volatility environment.

Fees

Investment Management Fee	Class A Shares: 1.50% per annum; Class B Shares: 1.00% per annum; for the calculated on the NAV at each Valuation point payable monthly in arrears.
Performance Fee	A performance fee is payable only if the Sub-Fund's performance exceeds that of Benchmark Index and it will be 15.0% of the excess performance in relation to the Benchmark Index. The Performance Fee is calculated and accrued at each Valuation Point and paid out of the Sub-Fund based on the calculation at the last Valuation Point of every calendar year, within ten (10) Business Days following such Valuation Point.

When calculating the eventual Performance Fee, the respective Sub-Fund's performance will be determined on the basis of the change in Net Asset Value per Share after the deduction of the Investment Management fee and other liabilities but before the deduction of any applicable Performance Fee (the "NAV ex PF") over the NAV of the last Valuation Point of the previous calendar year (the "Performance Reference Point"), or the Initial Offering Price for any Valuation Point during the first calendar year.

A performance fee could therefore be paid even if the NAV ex PF has decreased compared to the last Performance Reference Point, but only if the Sub-Fund's performance has decreased less than the Benchmark Index's performance, provided that no Performance Fee will be payable if the NAV ex PF is below the Initial Offering Price and that any Performance Fee payable must not exceed the difference between the NAV ex PF and the Initial Offering Price, thus guaranteeing that the NAV per Share never goes below the Initial Offering Price following the payment of a Performance Fee.

If during a given period, the Sub-Fund has a performance which is lower than the performance of the Benchmark Index (i.e. a relative underperformance), such underperformance must be taken into consideration in the following periods. No Performance Fee will be payable as long as the performance of the Sub-Fund has not recouped any underperformance relative to the Benchmark Index in preceding periods.

Depository Fee	Up to 0.10% of the NAV of the Sub-Fund subject to a minimum fee of EUR 12,000 per annum.
Administration Fee	Up to 0.10% of the NAV of the Sub-Fund subject to a minimum fee of EUR 15,000 per annum for the first active share class and EUR 2,000 per annum for each additional active share class. The annual minimum fee during the first year from the launch of the Sub-fund will be reduced to EUR 8,000 for the first active share class.
Subscription Fee	Up to 2.0% of the subscription proceeds.
Redemption Fee	Up to 2.0% of the redemption proceeds.
Share Transfer Fee	None.
Dilution Levy	None. Provided that the Directors reserve the right to introduce a Dilution Levy in future.

The Offering

Share Offer

This Offering Supplement is supplemental to, and must be read in conjunction with, the Prospectus issued by the Company.

The Offering Supplement constitutes an offer of Investor Shares in the Sub-Fund which is initially comprised of 10,000,000 (ten million) Investor Shares.

The offering of the Investor Shares at the Initial Offering Price shall commence at 9 a.m. (9.00 hours) CET on the business day immediately following the date on the first page of this document and end at 5 p.m. (17:00 hours) CET on the Closing Date.

During the Offering Period which shall commence on the first Business Day after the Closing Date and remain open until such time as the Directors determine otherwise, the offer is for Investor Shares at the Subscription Price applicable on the relevant Subscription Day.

Purchase, Transfer and Exchange of Shares

Investor Shares can be purchased at the prevailing Subscription Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Subscription Application prior to the Subscription Notice Deadline. Subscription requests received after the cut off time for receipt of subscriptions requests will be processed on the following Subscription Day.

If the Subscription Application is not received as required, then the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. In the event that an application is rejected, any application monies received will be returned without interest by telegraphic transfer to the remitting bank at the discretion of the Company at the risk and expense of the Subscriber. Subject to the satisfaction of the requirements set out above, Investor Shares shall be issued to successful Subscribers on the relevant Subscription Day.

No application will be capable of withdrawal after acceptance by the Administrator, unless such withdrawal is approved by the Directors acting in their absolute discretion. In such circumstances, the Company may charge the Subscriber for any expense incurred by the company and for any loss to the relevant Sub-Fund arising out of such withdrawal.

The Administrator will generally issue written confirmation of ownership to a Shareholder within seven (7) Business Days after the applicable Subscription Day.

Payment should be effected as described in the Payment Forms which are available from the Investment Manager and/ or the Administrator. At the Company's discretion, payments may be accepted other than in cash. All payments for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before 12.00pm (noon) (CET) on the Settlement Date. Any applicable bank charges will be borne by the Subscriber.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant Settlement Date or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

Full details of the application and subscription process appear in the Section of the Prospectus entitled "**Purchase, Exchange and Transfer of Shares**".

A Subscription Application and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Redemption of Shares

Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the Redemption Notice Deadline. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled on the relevant Redemption Day and redemption requests will generally be settled within seven (7) Business Days from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled "**Redemption of Shares**".

A Redemption Notice and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances, the Company or its authorised agent may scale down pro rata the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Pricing

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator at each Valuation Point on every Subscription Day and Redemption Day in such manner as is stated in the Prospectus under the section entitled "**Net Asset Value Calculation**". The NAV per Share will be available from the Administrator and will be published on the website of the Administrator.

Duration of the Sub-Fund

The duration of the Sub-Fund is indefinite.

Historical Information

The Company is not a newly formed entity and as such it has an established track record for each of its existing sub-funds. The performance for these sub-funds can be consulted by potential investors on the Investment Manager website as well with other market data providers such as Bloomberg and Thomson Reuters.

However, investors should note that performance figures for other sub-funds of the Company should not be utilised as a basis for evaluating potential performance of the Sub-Fund.

Fees Payable by the Sub-Fund

Investment Management Fee

The Company will pay the Investment Manager an Investment Management Fee as follows:

In respect of the Class A Shares, 1.50% per annum; and in respect of the Class B Shares, 1.00% per annum.

The Investment Management Fee will accrue at every Valuation Point and shall be payable monthly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Performance Fee

The Investment Manager shall also receive from the Company in respect of the Sub-Fund an incentive fee (the "Performance Fee").

The Performance Fee is calculated and accrued at each Valuation Point and paid out of the Sub-Fund based on the calculation at the last Valuation Point of every calendar year, within ten (10) Business Days following such Valuation Point. The concept of "crystallisation" will be applied, meaning that the performance fee due to the Investment Manager is precisely determined (accrued or "crystallised") at any time, in order to ensure that an investor applying for the redemption of his Shares within a certain period nevertheless pays an adequate portion of the Performance Fee due at the end of the calendar year. Crystallised Performance Fees shall remain in the relevant Class of Investor Shares until paid to the Investment Manager, and shall not be used or made available to satisfy Redemptions or pay any fees and expenses of the Investor Shares.

The Performance Fee is payable only if the Sub-Fund's performance exceeds that of Benchmark Index and it will be 15.0% of the excess performance in relation to the Benchmark Index. The Performance Fee, if any, will be calculated based on the number of Shares in issue on the Valuation Day on which the Performance Fee is payable.

When calculating the eventual Performance Fee, the respective Sub-Fund's performance will be determined on the basis of the change in the NAV ex PF calculated over the NAV of the last Valuation Point of the previous calendar year (the Performance Reference Point), or the Initial Offering Price for any Valuation Point during the first calendar year.

A Performance Fee could therefore be paid even if the NAV ex PF has decreased compared to the last Performance Reference Point, but only if the Sub-Fund's performance has decreased less than the Benchmark Index's performance, provided that no Performance Fee will be payable if the NAV ex PF is below the Initial Offering Price and that any Performance Fee payable must not exceed the difference between the NAV ex PF and the Initial Offering Price, thus guaranteeing that the NAV per Share never goes below the Initial Offering Price following the payment of a Performance Fee.

If during a given period, the Sub-Fund has a performance which is lower than the performance of the Benchmark Index (i.e. a relative underperformance), such underperformance must be taken into consideration in the following period. No Performance Fee will be payable as long as the performance of the Sub-Fund has not recouped any underperformance relative to the Benchmark Index in preceding periods.

For the avoidance of any doubt:

- if the performance of the Sub-Fund, as defined above, is positive but the NAV ex PF per share is below the Initial Offering Price, no performance fee will be payable for that period, even if the Sub-Fund's performance exceeds that of Benchmark Index;
- if the performance of the Sub-Fund, as defined above, is positive and the NAV ex FP per share is above the Initial Offering Price, a performance fee will be payable for that period and it will be calculated on the minimum amount between a) the full positive difference, if any, between the Sub-Fund performance and the Benchmark Index performance, even if the latter's performance is negative, and b) the difference between the NAV ex PF and the Initial Offering Price;

- if the performance of the Sub-Fund, as defined above, is negative but the NAV ex PF per share is above the Initial Offering Price, a performance fee will be payable and it will be calculated on the minimum amount between a) the full positive difference, if any, between the Sub-Fund performance and the Benchmark Index performance and b) the difference between the NAV ex PF and the Initial Offering Price.

As the Performance Fee for this sub-fund is always calculated in relation to that of the Benchmark Index, no high water mark is applicable to the calculation of the Performance Fee for this sub-fund, therefore investors may end up paying a Performance Fee on the same increases in performance more than once.

The following is a worked example showing the Performance Fee calculation for any share class:

	NAV ex PF (a)	(a) > 100 ?	FP * (aa) = [(a)Y ÷ (h)Y-1] - 1	Benchmark Index (b)	BP ** (bb) = [(b)Y ÷ (b)Y-1] - 1	EP *** (d) = (aa) - (bb)	UP **** (e)	EP After Recoup (e) = [(d)Y + Min (0,(e)Y-1)]	PF Rate (f)	PF / Share (g) = Max [0 , (e) x (f)]	NAV (h) = (a) - (g)

*** EP = Excess Performance

**** UP = Cumulated Underperformance

The Company will not adopt an equalisation methodology for the calculation of the Performance Fee. Shareholders may according underpay/ over pay any Performance Fee due to the Investment Manager when subscribing and/ or redeeming their Investor Shares.

Administration Fees

The Company shall pay the Administrator out of the assets of each Sub-Fund an administration fee (the "Administration Fee") an Administration Fee of up to 0.10% of the Sub-Fund's Net Asset Value, subject to a minimum fee of EUR 15,000 per annum (excluding VAT thereon if any) for the first active share class and EUR 2,000 per annum for each additional active share class. The minimum annual fee during the first year from the launch of the Sub-fund will be reduced to EUR 8,000 for the first active share class. The Administration Fee is calculated by reference to the Net Asset Value at each Valuation Point and shall be payable monthly in arrears.

In addition to the Administration Fee, the Administrator is also entitled to receive out of the assets of each Sub-Fund agreed upon fixed fees for the preparation of unaudited financial statements for the Sub-Fund, investor transactions and maintenance of investor accounts.

The Investor Shares entitle Shareholders to participate in the movements, both positive and negative, in the value of the assets of the Sub-Fund as well as the receipt of dividends as set out hereunder.

The Founder Shares do not (for so long as there are any Investor Shares in the Company in issue) carry the right vote at general meetings of the Company but they have (together with the Board) the exclusive right to nominate Directors as eligible for appointment by the Company in general meeting. The Founder Shares do not carry a right to participate in any dividends or other distributions of the Company or in the assets of the Company on a winding up (other than to the surplus, if any, that may remain after payment of all amounts due to creditors and holders of the Investor Shares).

Share Capital and Accounts

All amounts received by the Company on the issue of Investor Shares, initially and subsequently, will be credited as share capital of the Company and will form part of the NAV of the Sub-Fund. Separate accounts are kept for the assets of the Sub-Fund.

Risk Related to Efficient Portfolio Management Techniques

The Sub-Fund may use financial derivative instruments for efficient portfolio management purposes which entails the establishment of an overlay strategy that defines the objective, associated costs and benefits in addition to the risks of the said strategy. There are certain trade-offs which are to be considered when using financial derivative instruments for the purpose of efficient portfolio management in that derivative instruments provide means to manage risk and achieve financial objectives however they may convert a first-order risk (e.g. interest rate risk) into other second-order risks (e.g. counterparty risks). Inaccurate analysis of these risks and limitations may adversely affect the performance of the Sub-Fund.
