### Objectives and Investment Policy

- **Investment Policy:** The Investment Manager (“We”) are expected to focus on a diversified portfolio of other eligible UCITS (“UCITS”) and/or other eligible collective investment schemes (“CIS”) which may be listed or unlisted. Investments in UCITS and/or CIS will be done with a buy and hold strategy.. No particular geographical locations have been identified as yet as this will be decided based on contingent market conditions. However, we shall invest in eligible UCITS and/or CIS that invest predominantly in transferable securities and/or other eligible assets such as money market instruments, deposits and financial derivatives instruments . We shall also invest in future, options, contracts for difference and other derivatives linked to equities, indices, interest rates and currencies.
- For temporary or defensive purposes, we may invest in short-term fixed income instruments, money market funds, cash and cash equivalents. We are also expected to invest in FDIs, including currency forwards, and ETFs for hedging purposes and the reduction of risk.
- Investor Shares may be redeemed on a weekly basis under the conditions provided for in the Prospectus.

**Management Discretion:** The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

**Income:** This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares.

### Risk and Reward Profile

Lower risk ← Higher risk

1 2 3 **4** 5 6 7

The above risk and reward indicator rates this Sub-Fund as category 4 meaning that the Sub-Fund offers a moderate risk of making a loss but also a moderate chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free. The rating shown is not guaranteed and may change over time. Historical data, such as the ones used in calculating the synthetic indicator may not be reliable indication of the future risk profile of the Fund.

The Sub-Fund’s rating reflects the nature of its investments and the corresponding risks to which the Sub-Fund is exposed. These risk factors, which include the risks listed below, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses:

**Credit Risk:** Debt securities and bonds held for the Sub-Fund involve credit risk represented by the possibility of default by the issuer.

**Exchange Rate Risk:** The Sub-Fund may invest in assets denominated in currencies other than Euro, thereby exposing the Sub-Fund to fluctuations in exchange rates.

**Charges and Expenses:** Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

**Duplication of Fees:** The investment by the Sub-Fund in eligible UCITS and/or CIS would ordinarily make the Sub-Fund subject to the payment of all fees which investors in such target schemes would normally be subject, including without limitation, subscription fees, entry charges, redemption fees, exit charges, early redemption penalties, management fees and performance fees where the investment manager is not the investment manager of such UCITS and/or CIS. The Sub-Fund may invest in UCITS and/or CIS which are managed by the investment manager of the Sub-Fund. In such a case, there will be certain waiving of fees and only one set of subscription and/or redemption fees, where due, applies between the Sub-Fund and the target schemes in order to avoid duplication of fees.

**For more information regarding risks, may be found in the “Risk Factors” section in the Company’s Prospectus. The “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.**
